EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Maddox on 10 June 2005.

The application has been amended as follows:

Claim 4, line 1; change "surfaces contacts" to -surfaces are adapted to contact-.

Claim 5, line 1; change "surfaces contacts" to -surfaces are adapted to contact-.

Claim 6, line 1; change "surfaces contacts" to -surfaces are adapted to contact-.

Claim 8, line 1; change "said clamp members" to -said sliding and receiving attachment structures-.

Claim 10, lines 1-2; change "said first and second attachment structures" to -said sliding and receiving attachment structures-.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious the overall claimed invention of a sternal closure device comprising impermanently joined sliding and receiving attachments structures; wherein the receiving attachment structure further comprises a resiliently tensioned locking member with angularly disposed teeth like structures outwardly

positioned at first and second end of the resiliently tensioned locking member and a securing aperture substantially centered there between; and wherein the resiliently tensioned locking member may be compressed to facilitate immediate device disengagement when previously secured intercoastally between at least two corresponding positioned rib pairs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Comments

3. The drawings are objected to because figures 6 and 7 are faded and unclear. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet"

Art Unit: 3731

pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
